

Protecting the People who Feed the World[®]

Join AgriSafe in our mission to improve the health and safety of farmers and ranchers. AgriSafe's impact is facilitated through alliances that are strategic and symbiotic. To become an **AgriSafe Corporate ChangemakerSM**, explore our three sponsorship opportunities:

Corporate Sponsors: benefit from national exposure, being the unique company representing their industry.

Program Sponsors: benefit from being recognized as the champion of a unique program.

Product Sponsors: benefit from product placement during AgriSafe trainings and events.

Corporate sponsorships are customized partnerships carefully crafted to meet the expectation of each partner. We focus on understanding the philosophy of corporations, their prior history of giving and commitment to social good.
